To further check whether the SIT fits your ceramic, a template can be downloaded from [Laufen.com/cleanet](http://Laufen.com/cleanet) and printed out.

This listing is based on the information provided by the individual ceramic manufacturers at the time of publication. The most up-to-date version of the ceramic recommendations can be found online at [LAUFEN.com](http://LAUFEN.com). LAUFEN cannot guarantee the actual compatibility of the LAUFEN CLEANET SIT seat with the recommended ceramics. It should always be checked on a case-by-case basis whether the LAUFEN CLEANET SIT seat can be installed on the respective WC ceramic, and whether the visual appearance of the seat combined with the WC ceramic meets personal expectations. Due to manufacturing tolerances in the production of WC ceramics, minor fitting inaccuracies may occur in some cases.
